

Name of Dog: Buster

Age: 7

Breed: Corgi, Chihuahua, Terrier,...?

Good with dogs, No cats, No kids

Microchipped, neutered, vaccinated

Leash-trained, crate-trained, obedience-trained

Bio:

Buster is estimated to be around 7 1/2 years old. He is a fairly small dog at 17 lbs. but very high energy, loves playing in the backyard and playing catch. He also loves running alongside a bike or with a runner, although he is not an off-leash kind of pup, and also runs on the treadmill.

Buster has been through a lot of obedience training and knows all the basics, but does require an assertive owner to help him stay focused. In the past he has bonded especially well with a number of men that he sees regularly, and would be a great match for a guy looking for an adoring companion.

Buster does have limited tolerance for the unpredictability of young children, and needs a home with no kids. He's a little cautious at first in new situations, but is very affectionate with people once he's comfortable and he's content to sit near you and chew on a bone. And after an initial introduction, Buster H. does well with other dogs.

Buster is neutered, microchipped, and is up to date on his shots.
